

PRODUCT SPECIFICATION

PRODUCT	Apple Flavouring
REF NO	A 968
STATUS	Flavouring
APPEARANCE	A mobile, clear, colourless liquid
ODOUR	Characteristic, as sample
SOLVENTS	Propylene Glycol
COLOURS (w/w)	None
S.G. at 20 °C typically	1.034
R.I. at 20 °C typically	1.431
FLASH POINT	54 °C FLAMMABLE
FLAVOURING INGREDIENTS in descending order of weight	Flavouring Substances
OTHER INGREDIENTS in descending order of weight	Propylene Glycol
NUTRITIONAL INFORMATION	based on calculated and theoretical values. Energy value approx. 1600 kJ/100g. 380 kCal/100g Further information available on request.
STORAGE	The container should be tightly sealed. Store in a dark place in an even temperature not exceeding 15 °C.
SPECIAL CONDITIONS	Store on a site suitable for flammable materials, keep away from possible sources of ignition. Ensure adequate air circulation and fume extraction.
PACKAGING	H.D. Polyethylene
SHELF LIFE	12 months in original pack with regard to the above notes
LEGISLATION	Permitted for use in foodstuffs in the United Kingdom. Conforms to Regulation (EC) No 1334/2008 and other relevant UK food law

Date July 2015

Code 23045 issue E
